PERSONAL PROJECTS

ThirdJob (05/2021 - 02/2022)

- Led the development of "third job," a blockchain-powered freelance platform. Designed user interface, integrated smart contracts, and established privacy protocols. Prioritized collaboration and user feedback.

Decentrillized Dex (01/2024 - Present)

- Blockchain-based decentralized exchanges (DEX) enable direct peer-to-peer trading of digital assets via smart contracts. Users retain control of their funds, enhancing privacy and security while fostering global, permissionless trading.

Blockchain Wallet (02/2023 - 06/2023)

- Introducing a cutting-edge blockchain wallet that effortlessly handles both traditional cryptocurrencies and non-fungible tokens (NFTs) without requiring importation. Seamlessly manage, store, and transact with all your digital assets in one place, simplifying your blockchain experience.

HM Wheels (03/2021 - 04/2021)

- Decentralized car selling platform. No intermediaries, transparent transactions. Buyers access global inventory. Sellers set terms, lower fees.

web3 Uber (04/2020 - 08/2022)

- A decentralized ride-hailing platform powered by blockchain technology. Say goodbye to centralized control as users connect directly, ensuring transparency and fair transactions. Drivers earn more, riders pay less, and everyone enjoys a truly decentralized experience.
